FORWARD-LOOKING STATEMENTS

This news release contains “forward-looking statements” as defined by the Private Securities Litigation Reform Act of 1995. Statements relating to plans, prospects, goals, strategies, future actions, events or performance and other statements which are other than statements of historical fact, including all statements regarding resuming shipments and expectations as to inventory levels are forward-looking. To identify these statements look for words like “believes,” “expects,” “may,” “will,” “should,” “could,” “seeks,” “intends,” “plans,” “estimates” or “anticipates” and similar words or phrases. Forward-looking statements necessarily depend on assumptions, data or methods that may be incorrect or imprecise and are subject to risks and uncertainties.

The factors that could cause our actual results and future actions to differ materially from those described in forward-looking statements are described in our Securities and Exchange Commission filings, including the “Business” and “Risk Factors” sections in the Company’s Annual Report on Form 10-K for the fiscal year ended October 31, 2010, as such Risk Factors may be updated in quarterly filings.

We caution investors that forward-looking statements reflect our analysis only on their stated date. We disclaim any intent to update them except as required by law.

CooperVision Continues the Voluntary Recall of Avaira® Toric Contact Lenses

PLEASANTON, Calif., October 12, 2011, CooperVision, Inc. is continuing to work with the FDA, distributors, customers, eye care practitioners and lens wearers to complete the recall initiated on August 19, 2011 on certain lots of Avaira® Toric contact lenses.

“Our first priority is always the health and safety of all CooperVision lens wearers and as such we responded quickly to complaints from our customers by initiating a voluntary recall” said Christine Moench, vice president, Global Regulatory Affairs and Quality Assurance. “We want to ensure that all consumers are aware of this action and know where to go for more information.”

If you wear Avaira Toric contact lenses and experience any symptoms, CooperVision recommends that you stop wearing the lenses immediately. Contact your eye care practitioner for advice.

If you wear Avaira Toric contact lenses and are not experiencing symptoms, CooperVision recommends that you:

- Go to the CooperVision recall web page at www.coopervision.com/recall, and enter the lot number of your package to determine whether your lenses have been recalled.
- Alternatively, you may contact us on our toll-free consumer hotline (1-855-526-6737)
- If your lenses have been recalled, return your lenses to your eye care practitioner or point of purchase.

The recall was initiated because of the unintended presence of a residue on certain lots of Avaira Toric lenses, which may cause temporary hazy vision and discomfort. Not everyone experiences the same symptoms. Since the initiation of the recall the company has received some additional complaints of severe eye pain. Avaira Toric contact lens wearers that experience any symptoms should stop wearing the lenses immediately and speak with their eye care practitioner.

We have ongoing relationships with practitioners to continue to identify all the affected lots in the market. To date the recall has impacted approximately 600,000 Avaira Toric contact lenses in the U.S.

As part of the recall, CooperVision notified its customers and requested eye care practitioners contact their patients regarding this recall. Because CooperVision lenses are sold through distributors and eye care practitioners, communication efforts have been focused through these channels in order to most effectively reach lens wearers. Within the first two weeks of the initiation of the recall on August 19, 2011, CooperVision completed the following actions:

- Sent worldwide recall notifications to more than 9,000 Avaira Toric CooperVision customers.
- Contacted more than 7,000 U.S. eye care practitioners who have received or sampled Avaira Toric contact lenses.
- Issued a press release via GlobeNewswire from CooperVision’s parent, The Cooper Companies, regarding the voluntary recall of limited lots of CooperVision Avaira Toric lenses.
- Included information on the CooperVision website for lens wearers to easily and quickly check if their lenses are impacted (www.coopervision.com/recall), established a toll-free consumer hotline (1-855-526-6737), and included an informational notice on www.coopervision.com.
- Instructed authorized distributors to send back all Avaira Toric products – not just specific lot numbers – so that CooperVision could ensure that affected lenses were removed.
- Provided retailers and distributors access to patient communications materials – including post cards and e-mail messages – to send to Avaira Toric lens wearers impacted by the recall.

- Worked with eye care practitioners to specifically remove affected lots of Avaira Toric products, by providing them with more than 3,500 customized reports detailing affected lots specific to their location.
- Deployed customer care resources to answer questions from patients, and a specialized team of customer care representatives were made available to contact patients on behalf of eye care practitioners.

The efficient and effective implementation of this recall remains a priority for CooperVision.

About CooperVision

CooperVision, a unit of The Cooper Companies, Inc. (NYSE: COO), is one of the world's leading manufacturers of soft contact lenses. The Company produces a full array of monthly, two-week and daily disposable contact lenses, all featuring advanced materials and optics. CooperVision has a strong heritage of solving the toughest vision challenges; such as astigmatism, presbyopia and ocular dryness; and offers the most complete collection of spherical, toric and multifocal products available. Through a combination of innovative products and focused practitioner support, the company brings a refreshing perspective to the marketplace, thereby creating real advantages for customers and wearers. For more information, visit www.coopervision.com.

Contact lenses are medical devices and can only be prescribed and dispensed by a licensed eye care professional.
